The international investment fund has moved its trading infrastructure to the Finsilica LTD platform. Now traders have all the benefits of the multi-asset platform, the most powerful algorithmic trading capabilities and a unique ecosystem of services from Finsilica LTD .

Besst Point Capital House Limited is an independent global company founded by experienced fund managers. The broker's team focuses on differentiated strategies that help to successfully manage investments.

Collectively, Besst Point Capital House manages US$ 250 million in funds for institutions, financial advisers and private investors. Broker team members, who have more than 14 years of investments experience, manage US$ 65.8 million in client portfolio.

Mr Santoshkumar Gaikwad, Besst Point Capital House

"With Finsilica LTD now as Hedge Fund Software, we are reaching our goals and giving our investors all advantages of Multi Market Platform in real sense", says Mr Santoshkumar Gaikwad, Chairman of Besst Point Capital House. "Now our dealing room can access deep liquidity from multiple sources, apply various algorithms, calculate and share the net asset value (NAV)/asset under management (AUM) together with the management/performance fee, as well as generate reports. The ability to do all this on mobile devices gives us more transparency and flexibility".
